

## AirStream Live Video Streaming Service From AirSpeed Telecom

Flexible and Adaptable - Streaming to suit your event - Any size event to any device

### Simple and Speedy Set Up

AirStream provides professional and stress free delivery of your live and on-demand streams over the internet to a global audience.

AirStream can service any of your live streaming needs. As experts in the strategy, creation and digital delivery of live and on-demand video, we are able to offer the experience and creativity required to consult on all aspects. AirStream's project consultancy enables our team to get to the heart of your project requirements, creating a blueprint of the best practices and technologies to use to ensure best results.

### Deliver to Multiple Formats

We offer the option to stream to multiple devices on all projects. Stream your event at the highest quality HD, to all platforms. Streaming to your website? Streaming to YouTube? Or streaming your event to a large screen? We'll make sure the quality exceeds your needs.

### Competitive Rates and Packages

For both corporate and consumer productions, AirStream can provide a complete service including the latest equipment, encoders, sound, vision mixing, 1, 2 or 3 cameras plus operators. AirStream has the knowledge to pull it all together in the most cost effective manner to fit in with your budget.

### Connectivity

Connectivity is an integral part of this. The Morrison Hotel has the AirSpeed Link installed with bandwidths of up to 200Mbps available, we have complete control of the streaming over our network, which guarantees best picture and sound quality at all times.
