Sugababes' Heidi is a blooming marvel

GORGEOUS Heidi Range looks overloaded with flowers after stepping out in Dublin yesterday, following Sugababes' knockout performance at the Point Theatre.

Carrying a massive bouquet, celebrity-watchers could only ask - were they from

an admirer?

Heidi, Amelie Berrabah and Keisha Buchanan were staying in the swanky Morrison Hotel, before heading to Belfast last night for another show on their hectic schedule to promote their

latest album, *Overloaded: The Singles Collection*.

Amelle showed that she was ready to give it big licks in the fashion boutiques when she was also spotted outside the hotel wearing a Rolling Stones lips T-shirt.

However, there was no sign of curvy Keisha.

Perhaps, the late nights have been catching up with her and she had opted for a lie-in. Just sleep through the alarm or push the (snooze) button if it goes off.
